SARSAPARILLA.

THIS INVALUABLE COMPOUND, so fully appreciated by the American people, is gaining wide celebrity, and has become permanently established the best and most effective medicine of the day. Certificates are daily pouring in from all parts of the States, and the afflicted now rejoice there is help when every other ren edy proved ineffectual. Diseases which for years proved a source of misery and agonizing torture, readily yield beneath its irresistable influence and countless families rendered hanqu and cheerful by its extraordinary efficacy. If you want the pure and geauine Sarsaparilla, that which is as different and superior to Bull's, Blackwell's. Townsend's. Sands', Guysott's, Cox's or any other compound, as one thing is capable of being to a nother, than take Hurley's, for out of thousands of cases scattered through Alaban, a Mississippi, Wisconsin, Indiana, Missouri, and Kentucky, it has never in a singleinstance been known to fail, and will cure beyond all doubt.

Dyspepsia or Indigestion, Scro-ula er Kings Evil, Af fections of the Bones, Syphilis, Debility, Habitual Costiveness, Erysipelas, Pulmonary Diseas-s, Liver Complaint, Piles, Female Irreg ularities, Fistula, Skin Diseases, Diseased Kidneys, and as a great and powerful Tonic, purifying the Blood and in vigorating

System.

Unlike other compt and swhich, when first introduced, are said to possess medical qualities, but seen degenerate into injurious trash, this highly cracentrated fluid Extract, is prepared with the meatest accuracy and schemical knowledge, ontirely of vegetable substances, and warranted never to deviate in strength. The powerful machinery employed, and care devoted I in combination, together with the important fact that it is the only preparation in America containing Hondurus or Para root, 69 al dish beyond all doubt that it is the sufferestem dy. Its extensive popularity and wide spreading fame, coupled with unparalleled cures effected by its agency, have sained both public confidence and i professional reliance. Therefore henceforth let it be understeed for the proofs are to numerous and overwhelming to be questioned, that HUR LEY'S SARSAPARILLA is the most valuable and wenderful medicine ever observed to the world.

Hurley's Sarsaparilla is what it is represented, and I believe it the most wonderful medicine before he public. Nothing under heaven could induce me to say so without proof of the strongest and streat kind; therefore I speak willingly and positively on.

the subject.

Meanufitor has been afficited with skin diseases and stiffness of the scients for several years. I employed the principal physicians of this city and they could nessente, she variety got well and they could nessente she it was one for our Sarsisparilla not expecting it would do much good, but to my great ast on ishment, she variety got well, and thank God, continues so. Had she been taking any other modifies. I would not give this certificate; but your Sarsaparilla the only remedy employed, leaves no doubt of its medical qualities, and that it slone cured her.

Signed.

LUKE REYNOLDS.

Any person requiring the truth and honesty of this statement, will find me at my residence, corner of Ninth and Walnut stree's, Louisville, Kentucky. Dr. Herley Siv: I have used your Sarsaparilla in Chlorosis. Amenorhea | Whitest, and many ather direases connected with the female organization, and always found a happy result within a thorter space of time than is usually expended in the treatment. It is decidedly preferable as a general Tonic to Quinine, or preparations of Iron, and am fully satisfied it will become an established item in the Physician's recipe. Respectfully yours.

Having been engaded in the drug business for everal years, I do not hesitate to pronounce Hurleya' Sarsaparilla the best preparation now in use.

GEO. GE MULLIKIN.

Orleon, Ind., Nov. 28. 1854.

Dn. Hurley—Sir. Your Sarsaparilla certainly deserves to supercede all other preparations of that medicine. Heretofore, the unsatisfactory results shained from the use of Sarsaparilla certainly deserves to supercede all other preparations of that medicine. Heretofore, the unsatisfactory results shained from the use of Sarsaparilla, depended apona want of skill in making proper selections from the different qualities found in our markets, and that which has been vended in the form of nostrums has generally been prepared by incorant, incompetont and mercenary quacks, which if containing any Sarsaparilla at all, was a very cheap and worthless article, and in the majority of histances loft the sufferer in a much worse condition than hefore taking it. Having tested your Sersaparilla. I am pleased to say that it is free from the imperfections alluded to, and 1 therefore take pleasure in recommending it to the confidence of the profession and to the affected public, and feel perfectly attisfied they will realize averything from it that to be derived from the use of Sarsaparilla.

(From the Louisville Courier.) The Know Nothings and the Sons of Liberty.

To Geo. D. Prentice Esq.—Sia: In one of the numbers of the Journal I observed that you take some notice of a secret society that existed in Louisville in 1846, known as United Sons of America, and draw a parallel between it and the present order of Know Nothings, much to the distancement of the tormer.

A candidate for a mission had to petition two weeks previous to his initiation, and a committee was appointed to canvas his moral character. When reported upon he was regularly balloted for and received or rejected, according to circumstances. With the Know Nothings a man may be initiated by any private member without the action of the ledge, and no investigation into his character is necessary. He may have been penitentiaried for any or all the crimes known to the criminal rode; but, if he is an acceptable brother, and a fit subject to "rule America." He may stand expelled from any decent institution under

of recognition. No man was required to disguise his membership or the members the other end rested on the top of the abutment. I nivel was a member of the order of United Sons of America, and will proceed to set you right upon such points as you have erred in drawing your parallel between them, and I will name several gentlemen who were also member of the order, to whom I shall feel indebted for any correction, should my memory err. The society met over the Commercial Library, on Fourth street. So far as I understood it, it had two objects. One was to be beneficial, and the other was to hold be balance of political parties existing at that the West political parties existing at the slowly moved along the embankment, there was no fear or danger, and no apprehension of peril. Equivocat. Compliments.—Compliments may be offered in all sincerity, and yet have a very equivocal sound, as in the case of the city knight, unable to aspirate the letter H, who, being deputed to address William III., exclaimed: "Future ages, recording your Majesty's exploits, will prohounce you to have been a Nero."

Not less honest and ambiguous was the negro's compliment to the great emancipator—"Gora mighty bless Massa Wilberfocel He hab a white face, but he hab a black heart."

THE VERY LAST DODGE.—During the late agricultural fair at Haverhill a place was wanted for the trial of horses, and a man named Lee offered the committee and spectators free admission to his grounds for that purpose. The crewd rushed in, but, when the sport was over, it cost them a 'quarier each' to get out.

A wagoner on being asked what he had in his wagon, replied: Three-fourths of a cross, and a circle com-

plete,
An upright where two semi-circles meet;
A rectangle triangle standing on feet;
Two semi-circles, and a circle complete.

Three fourths of a cross is a T. A circle complete is an O. An upright where two semi-circles meet is a B. A triangle standing on its feet is A. Two semi-circles are CC, and a circle is O.— TOBACCO is what was in the wagon.

HOT AND COLD.—An Irishman discovered a part of the wood work of a chimney piece on fire, that endangered the whole house. He rushed up stairs to his master, and announced the alarming intelligence. Down he rushed with him. A large kettle of boiling water was on the fire: 'Well, why don't you put out the fire?' 'I can't surr.' 'Why, you fool, pour the water upon it.' 'Sure it's hot water surr.' 'Why. H. KEENE. pour the water upon it.'

# FAMILY PHYSIC

There has long existed a public demand for an effective purgative pill which could be relied on as eare and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make a physical pill, but not easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the boweris. This is not. Many of them produce so much griping pain and revulsion ir. the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vogetable, no harm can arise from their use in any quantity; but it is oetter that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Apportite, Listicsaness, Irritability, Bilious Headache, Billious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Serofula and Seurry, Colids with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumantism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pa

Alis remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When cace tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to out—limate. And not only in formidable attacks upon the lungs, but for the milder varieties of Course. Courses, Hoarsersess, &c.; and for Cullidan it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been and that the genuine article is sold by—T. N. BARKLEY & CO., GEONGEP.
